*Visscher*

## MADE IN CANADA

Feel the essence of the great outdoors with structures crafted right here in Canada. Proudly manufactured and packaged in Chilliwack, BC since 1997, our dedication to quality is as natural as the landscapes that inspire us.

## HIGH QUALITY STANDARDS

We value the quality of our materials and the excellence of our designs. Every structure is crafted using West Coast Canadian Timber, a high-grade \*SPF lumber. We are proud to say every board is profiled and painted within our own facilities, ensuring a consistent, top-tier product. Paired with our rigorous paint process, our structures are built to last.

## TAILORED TO YOU

**Visscher** is versatile! Our structures are based on the “plug & play” concept. You can customize your living area by choosing, replacing or adding different components.

\*SPF: West Coast Spruce-Pine-Fir

# 2024 FEATURES

## Folding sliding double and triple doors

High-quality aluminum doors effortlessly slide and fold, providing an 80" and 120" clear opening, ensuring a seamless open-close experience.

## Extra-long locking Bi-fold Windows with insect screens

Introducing our largest windows, for enhanced natural light and increased ventilation.

\*Product may be subject to building code requirements. It is the consumer's responsibility to inform themselves of any restrictions prior to purchase.

\*Ensure snow removal. Excess snow on the roof may lead to structural stress.

\*Despite our careful design in Visscher Products to minimize water ingress, it's important to note that the structures are not entirely waterproof, and some water infiltration may occur.
