DOWNTOWN

AN ABOVE GROUND POOL NETWORK

Over 50 years of expertise in the injection process has enabled CARVIN® to produce each component of your above ground pool with unprecedented precision and quality.

CARVIN® above ground pools are the result of the collaboration between multidisciplinary experts, for which preparation and research are the key elements to the success of our brand. Our rigorous product development method has enabled the construction of these robust and sturdy pools. The high quality walls have innovative and refreshing textures that blend perfectly with any backyard style.

DID YOU KNOW

CARVIN® designed and developed a custom, unique in the world, state of the art, wall production process machinery. Standardized corrugation and perforation are 100% automated which results in unprecedented accuracy and homogeneity in production.
